CERTIFIED ORGANIC COCONUT OIL

100% NATURAL · FOOD GRADE · KOSHER · VEGAN

**Free from cholesterol, stabilizers, solvents, additives, preservatives
and artificial flavors or fragrance.**

Everland Certified Organic Coconut Oil is cholesterol-free and is rich in medium chain good fats. Good coconut oil is not stored in the body as fat due to the way it is metabolized. It is ideal as a high heat cooking oil (up to 350 degrees). It is an excellent alternative to butter or margarine and for sautéing, pan-frying or baking. Everland coconut oil is also useful as a luscious skin moisturizer, hair conditioner and styling aid. It is naturally saturated, non-hydrogenated, unbleached, unrefined, undeodorized and expeller pressed. It is certified organic and is free from pesticides, GMOs, and Hexane.

Everland Certified Organic Virgin Coconut Oil is the product of the first and the only pressing of organically grown mature coconuts. It is not heated thus retains its delicious mild fresh coconut flavour. Therefore it is a healthy raw food with a delicious flavour, fresh taste and aroma.
